Keith Calise

Junior Developer

keithcalise@gmail.com **|** 919.961.1211 | Github

After 12 years in area kitchens, I enrolled in the Iron Yard's summer 2015 cohort, focusing on Python engineering. As a recent graduate, I hope to expand my skills and provide seamless experiences for established companies.

Skills

Python3	Django	Unix
Matplotlib	Pandas	PostgreSQL
Heroku	sqlite3	Agile Development
Git	Github	Atom
Pycharm	OOP	Html5
CSS	Bootstrap	Ipython
Django REST Framework	JSON APIs	Javascript

Development Experience

The Iron Yard | Durham, NC
Student | Python Engineering Program | May–July 2015
- Intensive code school requiring 60+ hours per week of instruction and project-based learning.
- Worked independently and in teams to develop Python/Django applications on short deadlines.
- Developed ability to problem solve and troubleshoot from consulting documentation and direct implementation.
- Created a predictive inventory management system with a team of other junior developers.
- Implemented a functional API, making it possible to access online databases and bring them into our app.

Professional Experience

Empire Eats, Urban Food Group, Xenia Hospitality, Hibernian LLC | Raleigh, Charlotte NC areas
Chef | August 2002–April 2015
- Developed and installed inventory systems.
- Maintained weekly invoice tracking.
- Standardized recipes and methods of preparation.
- Developed kitchen operations within NC Health Department guidelines.
- Managed staff of 30 or more.

Education

The Iron Yard | Durham, NC | May–July 2015

Graduated Python Engineering program

Central Piedmont Community College | Charlotte, NC | January–May 2015
Intro to Logic and Programming
Intro to Network Security
